Plans, conducts, and coordinates a national program involving: (a) research on the detection, diagnosis, cause, prevention, treatment, and palliation of cancers and on rehabilitation of the cancer patient; and (b) demonstration of the effectiveness of cancer control methods and techniques. Specifically:

- Conducts and directs research performed in its own laboratories and through contracts;
- Supports and coordinates research projects by scientific institutions and individuals through research grants;
- Supports training in fundamental sciences and clinical disciplines through individual and institutional research training awards and clinical education awards;
- Supports construction of laboratories and related facilities necessary for research on cancer;
- Supports field tests and community demonstration projects of methods and techniques for cancer control;
- Collaborates with voluntary organizations and other institutions engaged in cancer research, training, and control activities;
- Encourages and coordinates cancer research by industrial concerns where such concerns evidence a particular capability for programmatic research;
- Collects and disseminates information on cancer research and cancer control; and
- Consults with appropriate individuals and agencies in the development, coordination, and support of cancer research programs in other countries.
Division of Cancer Prevention

Office of the Director (HNC41)

Cancer Prevention Fellowship Program (HNC414)

Protocol Information Office (HNC413)

Breast and Gynecologic Cancer Research Group (HNC42)

Prostate and Urologic Cancer Research Group (HNC43)

Lung and Upper Aerodigestive Cancer Research Group (HNC44)

Gastrointestinal and Other Cancer Research Group (HNC49)

Chemopreventive Agent Development Research Group (HNC4B)

Community Oncology and Prevention Trials Research Group (HNC4C)

Nutritional Science Research Group (HNC4D)

Cancer Biomarkers Research Group (HNC4G)

Early Detection Research Group (HNC4H)

Biometry Research Group (HNC4J)
